DETAILED ACTION

The following is an Examiner's statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose, make obvious, or otherwise suggest the structure of the applicant's method, system, signal, and medium of comparing each field in each URI associated with said media with a mask, said mask comprising at least one masking character; removing each character from each field that matches a masking character, wherein a URI that has been compared with said mask is a resultant URI; and collapsing all identical resultant URIs into one URI together with the other limitations of the independent claims. The dependent claims being further limiting and definite are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
